SOURGE

Whirteen fighters with radial engines and red propeller hubs were parked on the western edge of the BRANDELBURG-ARADO (N 53/Z 23) airfield. The radio truck / 3-02-04 was also observed there. About 70 aircraft of the same type were parked between the hangars. There was no flying.

Comment:

The BRANDENBURG-ARADO airfield has been occupied by Yak-3s and Yak-11s. From the reported presence of LAs it is assumed as rather certain that the occupation has changed. The reported motor vehicle number so far has been observed exclusively in the area of the I Gds Ftr Corps. Therefore, it is assumed that the newly arrived unit came from the area of the I Gds Ftr Corps. This assumption is supported by a different source. Two regiments are assumed to be stationed at the BRANDEMBURG-ARADO irfield.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
